

## LETTER TO LEGISLATION

My name is \_\_\_\_\_ and I am a resident in your legislative district and a Technology Education [teacher/supervisor].

I am writing regarding bill HR 362, the "10,000 Teachers, 10 Million Minds Science and Math Scholarship Act."

While I am supportive of this legislation, I feel that it is important to include teachers of Technology and Engineering alongside Math and Science teachers throughout this piece of legislation. This will be necessary to align the goals of this legislation with Science, Technology, Engineering, and Mathematics (STEM) initiatives throughout the United States.

I am asking you to stand up as my representative in support of such changes to ensure that we can continue to teach tomorrow's engineers, innovators, and workforce and develop a technologically literate citizenry.
