

Project leads the way

State Representative Phil Garthwaite (center) listens as Platteville High School student Charlie Rowe (L) discusses a project he developed as part of Project Lead the Way, national engineering and technology curriculum taught at Platteville High School. Also listening are Jason Julius (R), Platteville High School Project Lead the Way teacher; Andre Tieskoetter, Platteville High School student; and Greg Quam, Platteville High School technology and engineering teacher. The event was held at the Capitol rotunda on April 19.
