

OSWEGO EAST HIGH SCHOOL

1525 HARVEY ROAD
OSWEGO, IL 60543

Dear Junior High Teachers,

Your contact information was given to me via email from Amy Rux - Director Student Svcs at OEHS.

I am a Project Lead the Way teacher at OEHS and I would like the opportunity to visit your classroom to "show and tell" a little bit about the new pre-engineering program in the district. I would like to bring a few of my students to demonstrate their projects and give your students an informal "hands-on" experience using the computer software. Rather than visit each class, my thought was to set-up 3 stations in an empty classroom, multi-purpose room or LRC and invite classes to rotate in for about 30 minutes.

Since the 8th grade students will begin registering for high school classes shortly after the new year, I was hoping to visit your schools during the 1st/2nd week of December. I will prepare a handout with information about the engineering classes currently offered, some FAQ's, and contact information for students to take home to parents.

If this sounds like an opportunity that you would like to offer your students, please contact me via email and we can set up a date and time for the visit. You may want to check out the Project Lead the Way website for further information on the program -<http://www.pltw.org>

Currently, OEHS is one of 43 high schools in Illinois (1750 nation wide) that offers the program and one of only 13 that offers 3 courses. Our district is most fortunate to offer such an engaging curriculum to our secondary students, thus the need to recruit from your classes.

Please feel free to leave a voice mail or email if you have any questions.

I look forward to your reply and the opportunity to share a "discover engineering" experience with your students.

Sincerely,

Dara M. Randerson
