## Culinary Arts Work-Based Learning

Congratulations to the following Level II Culinary Arts Work-Based Learning students for a job well done at the Illinois ProStart Invitational held at Kendall College in Chicago on October 29, 2005:

- Kami Hainline-Woodruff High School
- Cory Jones-Elmwood High School
- Dwayne Lindsey-Richwoods High School
- Erik Lovingood-Richwoods High School
- Britnie White-Metamora High School

These students competed against 22 other teams in the Knowledge Bowl, Culinary Competition, and Management Competition. The team placed 6th overall. Kami, Cory, Dwayne, and Erik placed 3rd in the Knowledge Bowl and Erik and Kami placed 6th in the Management Competition.

Back Row: Chef Charles Robertson, Cory Jones, Erik Lovingood, and Kami Hainline  
Front Row: Britnie White and Dwayne Lindsey

The students also had the opportunity to participate in college tours and educational demonstrations during their trip to Kendall College. Kami and Cory were both selected to assist a chef instructor with a live demonstration on sausage making and risotto.

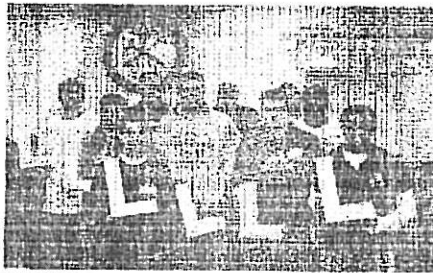

Many thanks to Chef Charles Robertson and Chef Joy Ashwood from Illinois Central College for their outstanding efforts in preparing the team for this event.

## Construction Industry WBL

The Level I Construction Industry Work-Based Learning students visited the Sheet Metal Workers Apprenticeship Training School on November 30, 2005.

The students received an introduction to careers in sheet metal work, including: sign making, ductwork, specialty sheet metal products and heating and air conditioning from Carl Grubb, Apprenticeship Coordinator, and two of his instructors. The presentation included several projects completed by the instructors and samples of materials used in the sheet metal industry. The students also received information about the apprenticeship school and application process.

After the presentation in the classroom, the students each completed their own hands-on project in sign making.

P.E.R.F.E.C.T would like to thank Carl Grubb and the Sheet Metal Workers Local 1 for providing the students with this tremendous opportunity

## Project Lead The Way

P.E.R.F.E.C.T. is pleased to announce two new developments in the regional Project Lead The Way program.

Frank Corso from Illinois Central College is teaching Civil Engineering and Architecture this semester. Mr. Corso is a licensed architect with several years experience teaching architecture at Illinois Central College. He completed the PLTW Instructor Certification Training at Purdue University last July.

In addition to the new Civil Engineering and Architecture class and instructor, regional PLTW students are also enjoying a new PLTW lab. The lab is located in Arbor Hall at the ICC North campus and has two separate classroom areas.

Many thanks to Illinois Central College for continuing to provide excellent instructors and quality facilities for the regional PLTW program.
