Motivation. Inspiration. Passion.

Autodesk®  
Authorized Training Center

## The MasterAcademy™ Advantage

As an Autodesk® Premier Solutions Provider (PSP®) for A+ Academic, Manufacturing and Architectural solutions MasterGraphics is passionate and committed to helping students of all levels prepare for and enhance their careers through continued learning and development. MasterGraphics also serves the professional and academic design communities through its five MasterAcademy™ Learning Centers throughout the Upper Midwest and is an Autodesk® Authorized Training Center (ATC®).

MasterGraphics specializes in helping the building, manufacturing and civil industries streamline their design process and utilization of CAD data to foster increased productivity, cost effectiveness and accuracy on projects.

### Exceptional Value for Educators

Educators receive the same quality MasterAcademy training that we offer Building, Manufacturing and Civil industry professionals, at a fraction of the cost. Give your students the best possible career training when you stay up-to-date with the current skills employers are looking for.

### MasterAcademy offers educators many ways to enhance your curriculum and hone your skills.

**MasterAcademy Training** – Scheduled classes at a reduced cost for educators (\$150 per day with \$350 cap).

**Custom and On-site training** – Available by request to fulfill your unique training requirements.

### Sample Course Schedule (visit [www.masterg.com/academy](http://www.masterg.com/academy) for complete class offerings)

CLASS TITLE - LOCATION - DATE	DAYS	PRICE (com)=commercial pricing, (edu)=education pricing	
AutoCAD® 2007 Level 1 Location: Madison, WI Date: March 26-27, April 2-3	4	\$ 350 (edu) \$ 950 (com)	This course equips the student with all of the knowledge and skills necessary for creating a basic drawing. Upon completion of this class, students will be able to create, organize and edit a basic 2D drawing.
AutoCAD® Level 2 - Productivity Location: OPEN Date: By Request	2	\$ 300 (edu) \$ 595 (com)	This course focuses on using efficiency tools, drawing with complex objects, defining blocks and attributes, using external reference and image files, layouts and advanced plotting features, sheet sets and customization. Suitable for students comfortable with basic drawing creation.
Autodesk® 3ds Max® Location: OPEN Date: By Request	3	\$ 350 (edu) \$ 895 (com)	This introductory course provides a broad foundation of skills in 3ds Max. Students will learn the tools and techniques needed to generate still and animated renderings. Comprehensive lab exercises reinforce the concepts and techniques taught throughout the course.
Autodesk® Inventor® 11 Level 1 Location: Minnetonka, MN Date: March 12-15	4	\$ 350 (edu) \$ 1095 (com)	Concepts, commands and techniques of Autodesk Inventor 11 will be introduced in this class. Students will learn how to create 3D drawings, assemble components and create layouts complete with bill of material and balloons.
Autodesk® Inventor® 11 Level 2 Location: Rolling Meadows, IL Date: April 26-27	2	\$ 300 (edu) \$ 650 (com)	This class is a continuation of the Level 1 class covering advanced functionality found in Autodesk Inventor. Topics include advanced sketching, part modeling, design automation techniques and best design practices.
Autodesk® Architectural Desktop (ADT) Level 1 Location: Madison, WI Date: March 12-14	3	\$ 350 (edu) \$ 895 (com)	This course covers several functionalities and features of Autodesk Architectural Desktop. Some of the abilities students will learn are how to create basic floor plans, including walls, doors and windows, create specialty objects and document their design with dimensions.
Autodesk® Architectural Desktop (ADT) Level 2 Location: OPEN Date: By Request	3	\$ 350 (edu) \$ 895 (com)	Designed to take advantage of sophisticated conceptual design and customization tools, students will learn how to create custom features, optimize the display and layer system, manage drawings and develop massing studies.
Autodesk® Revit® 9 Level 1 Location: Minnetonka, MN Date: February 26-28	3	\$ 350 (edu) \$ 895 (com)	Students will learn conceptual design, importing and linking of files and component creation for the basic building model. Special focus will be placed on creating walls, dimensions and other annotation. Students will also learn how to set up their construction documents for printing.
Autodesk® Revit® 9 Level 2 Location: OPEN Date: By Request	3	\$ 350 (edu) \$ 895 (com)	Covering a wide range of advanced topics, including creating design options, creating custom components, phasing, working with site data and rendering, students will be able to use Revit to create and render more complex models.
Autodesk® VIZ Location: Madison, WI Date: January 10-12	3	\$ 350 (edu) \$ 895 (com)	This is an intensive, project-based, hands-on course where students will be able to create a basic 3D scene, add materials and lights for realism and create presentations including renderings and animations.

## Autodesk® Instructor Development Programs (AIDP) – Special focus on integrating design technology into your class through curriculum development

Join other educators to learn how to integrate the newest design technology into your classroom and keep students excited about learning. AIDPs are one-day, hands-on training seminars for instructors to learn about program development geared toward satisfying curriculum requirements. These new Autodesk programs allow educational institutions to purchase and upgrade Autodesk software at an extreme value. You will also receive your own copy of the featured Autodesk software product for personal and educational use!

### AIDP Seminar Schedule (visit [www.masterg.com/academy](http://www.masterg.com/academy) for the latest postings)

CLASS TITLE	TIME: 8:30am-4:30pm	
Autodesk® Inventor®	\$ 99	This course is an introduction and overview of Autodesk Inventor software. Instructor demonstrations and student exercises introduce fundamental workflows and tools in Inventor, and will allow instructors to implement Inventor into their curriculum.
Madison, WI*	February 20	
Appleton, WI*	January 9	
Waukesha / Milwaukee, WI*	April 3	
Minneapolis, MN	March 16	Dunwoody Institute, 818 Dunwoody Boulevard
Alexandria, MN	March 14	Alexandria Tech, 1601 Jefferson Street
Autodesk® Revit®	\$ 99	After completing this course attendees will understand and be able to explain tools such as the Revit interface, including the Design Bar and Menus, as well as functions for creating and editing many different elements of a design.
Madison, WI*	January 9	
Appleton, WI*	February 7	
Waukesha / Milwaukee, WI*	April 6	
Minneapolis, MN	March 7	Dunwoody Institute, 818 Dunwoody Boulevard
Minneapolis, MN	April 12	Dunwoody Institute, 818 Dunwoody Boulevard
Mankato, MN	April 27	Southcentral Tech, 1920 Lee Blvd

AutoCAD® and ADT courses are available upon request, talk to your Account Manager today. \*Courses held at MasterGraphics facility.

### Teacher Training Schedule (visit [www.masterg.com/academy](http://www.masterg.com/academy) for the latest postings)

At these innovative, hands-on training seminars, you will learn about the features and functions of selected software products. As your partners in instruction, we have designed these seminars to help you integrate the latest design technology into your classroom. These classes are based upon our award winning commercial classes and designed just for teachers.

CLASS TITLE	TIME: 8:30am-4:30pm	
Autodesk® Inventor®	\$ 350	
Fargo, ND	February 13-14	TBD (check website for location updates)
Autodesk® Revit®	\$ 350	
Anoka, MN	January 18-19	Anoka Tech College, 1355 W. Hwy. 10
Rochester, MN	February 20-21	TBD (check website for location updates)
Bemidji, MN	March 27-28	TBD (check website for location updates)

As an Authorized Training Center, MasterGraphics offers continuing education units in partnership with Herzing College. Visit our website at [www.masterg.com/academy](http://www.masterg.com/academy) for more information.
